## FORK LIFT TRUCK WOVEN WIRE LOADER RACK

July 12, 1967

A Bureau employee has submitted a suggestion for simple and inexpensive construction of a loader rack for use on fork-lift trucks when loading and unloading rolls of woven wire. It has proven to be an extremely efficient and safe way to handle woven wire in warehouses or storage yards. The photographs below effectively illustrate this fact.

### Bill of Materials

4 pcs 2" x 6' ID pipe (flattened at one end)
2 pcs 1 1/2" x 10" strap iron (hold on hooks - A&B in Photo 1)
5 pcs 1 1/2" x 3' angle iron (17" spacing)

Total material and labor cost - $25.00
